## Residential Work

### General Contracting

#### Architectural Homes

Young Residence	2000 SF, cedar exterior, open floor plan, walk out basement
Feldman Residence	2500 SF, stone exterior, storefront glazing system, integral plaster
Slaughter Residence	2300 SF, spiral house, EIFS exterior, beadex interior SR

#### Custom Homes

Raintree Residence	1500 SF, hillside vacation style
Smith House	1600 SF, shell on existing foundation
Chandler Residence	1000 SF, vacation cottage, 5-sided with offset roof peak
Denno Spec Home	1400 SF, ranch style home (frame up/sheathing only)
Whited Road Residence	1800 SF, sea ranch style
Baker Lane Residence	1300 SF, ranch style
Houseboat Residence	650 SF, floating home on double ended lifeboat hull

#### Remodel/Repairs

San Anselmo Co-op Preschool	installed modular kitchen components
Rogers Santa Rosa Remodel	dry rot repair, structural beam replacement, plumbing, elec
Lone Pine Dry Rot Remodel	exterior dry rot repairs, misc items
Vallejo St. Remodel	rehab kitchen, bath, hallway, add ADA ramps and grab bars
Oak Creek Deck Remodel	add 2nd story deck to home overlooking creek
Pine Valley Remodel	design/build reinforced masonry boundary fence, install tile flooring
Chapel Remodel	add skylight at atrium, mount \$9000 dollar door, misc work
Foley Remodel	whole house remodel, convert garage to family room, add HVAC
Thorne Remodel	add loft to vaulted room, rebuild entry deck
Boothwell Remodel	waterproofing repairs, add exercise room/wine cellar
Cornville Ranch Remodel	remodel of ranch house, renovate caretaker's lodge, build horse barn
Pilokowski Remodel	install patio, raze roof, add new gable roof at garage/store room
Hardeman Remodel	add lofts, build stairs to lofts, finish kitchen, misc interior trim
Higgins Remodel	gut house, treat for termites, remodel extensively (all rooms)
Ryan Remodel	add gable roof on main house, restructure/insulate shed room
Tomales Remodel	add bath to existing MBR
Licher Remodel	build curvilinear retaining wall with concrete walkway
Scott Remodel	floor system, stairs, bond beams at new adobe studio
Elizabeth Place Remodel	whole house remodel over three levels, interior and exterior
Bower Remodel	extensive remodel of stacked hillside home
Evans Bathroom Remodel	remodel bathroom
Murphy Ranch Remodel	extensive remodel of 100 year old ranch house, underfloor reshoring
Cogan Remodel	upstairs remodel/finish work fence/trouble shoot leaks
Gans Remodel	dry rot repair at joists and bathroom
Harrington Remodel	dining room remodel, flood repairs
Tack Room Remodel	convert existing tack room to rental unit
Carriage House Remodel	remodel existing carriage house to rental unit
Severson Remodel	whole house remodel

Warner Kitchen Remodel	design, fabricate and install custom kitchen
Rose Remodel	kitchen and laundry room remodel
Smith Remodel	convert garage to bedroom and laundry room
Armour Remodel	whole house remodel including kitchen and bath
Estey Residence	add room at existing courtyard
Loop Remodel	add bath room
Lorenzoni Addition	add family room, dining room and office
Hardeman Remodel	build bay windows at dark basement apartment
Fancy Remodel	exterior doors, seismic ties at under house, porch landing, plumbing
Moore Deck	demo existing deck, frame and deck/handrails/steps
Humboldt St. Remodel	remodel of bathroom including dry rot repairs
Grossi Remodel	minor remodel of rental unit
Tank House Remodel	add roof, misc repairs to tank house
Dale Patio Project	add covered lanai
Geodesic Dome Project	install 14 sided concrete pad, build 2nd floor wrap around deck
Gray Oaks Remodel	beam work at kitchen
Houseboat Remodel Work	various repairs and remodels at several houseboats
Dublin Remodel	install recirc pumps at hot water lines
Sunnyslope Remodel	misc repairs
Siegleman Remodel	basement repairs, asbestos encapsulation

## Projects

Hardeman Carport Project	carport, 200' retaining wall
Feldman Bridge Project	built concrete bridge over 12' deep arroyo
Anderson Bridge Project	built curved concrete pedestrian bridge
Harrington Bookshelves	design, manufacture and install bookshelves and built-in settee
David Home AC	install AC unit
St. Helena Ave. Foundation	raised 100 year old Greek Revival farmhouse, installed foundation
Guerneville Road Roof	cut and stacked multi-hip/valley roof

## Superintendent

### Architectural Homes

Sonoma Compound	6000 SF main house, 800 SF cottage, 800 SF pool house, green house incorporating straw bale, PV, lime plaster, will seek LEED Platinum designation
Howland Spec Home	2000 SF, windows/doors at masonry walls, roof framing, trim
Wells Residence	2600 SF, craftsman style, beam work, coved DR ceiling
Zumwalt Residence	2400 SF, California style, faux adobe exterior

### Custom Homes

Van Kammen Residence	2000 SF, modern style
Finkle Spec Home	1600 SF, hillside contemporary
Denno Spec Home	1400 SF, woodsy cabin
Sexton Valley Residence	1400 SF, ranch style

## Entry (Featured in Architectural Digest)

"Geometry enhances the house in a subtle way," says Licher. ABOVE: Doors at the entrance court are mated alderwood with steel-plate inlays in an abstract geometric pattern. The curved entrance façade several feet into the earth to reduce its profile as well as to integrate it into the landscape. OPPOSITE: Boxes forming the master bedroom contrast with the timeless organic lines of the stone walls and distant

SINAGUA INDIANS, contemporaries of the Anasazi, inhabited the Verde Valley long before the first white settlers, building their pueblos from the same rich-hued sandstone that forms the spectacular cliffs and buttes. In Sedona—a newly incorporated city that is now steadily expanding across the abandoned Sinagua hunting grounds—the partners of Design Group Architects (Mike Bower, Rich Caragol and Max Licher) have drawn inspiration from age-old rocks and ruins in devising some of the area's most striking structures. Challenged by Trina and Howard Feldman to design a house that was light-filled, rooted and original, they fused old and new in what project architect Licher calls "a high-tech pueblo."

"We bought the site in 1979, soon after we moved here from New York,"

recalls Howard Feldman, a physician in practice with his wife, "and spent the next ten years dreaming of what we would put on it. Back East, my favorite style was English Tudor, but I am astonished when I see people doing that out here." While waiting to build, he commissioned Design Group to remodel his medical offices and to design a commercial structure in nearby Cottonwood. So successful were these projects that he chose the firm to create the house for his family.

Initially, the Feldmans had different ideas about the look of the house. However, there was agreement on open-plan living areas to separate the children's rooms at one end from the master suite at the other. They also both asked for clean finishes within, and an exterior that would fit into the landscape but have the excitement

of Los Angeles. "I had a love of Frank Lloyd Wright's organic geometry. He had a house to step down into the landscape, but I was a 'nonstandard.'" "But I had many specialists in my mind," he conceived them to find the right

"How do you get glass as you'd like to weave it together with it to the landscape?" "If you put big windows in a pueblo-style house, it's wrong, so we decided on a juxtaposition of materials." Licher loved the canyons and collected them. The concept for the house came to him in a flash one day as a specimen of fluorite crystals emerging from
